

EU Code Week at School

Bringing EU Code Week to schools across the EU and the Western Balkans

What is EU Code Week?

A grass-roots movement run by volunteers

Supported by the
European Commission

CodeWeek.EU

8 - 23 OCTOBER 2022

What are the objectives?

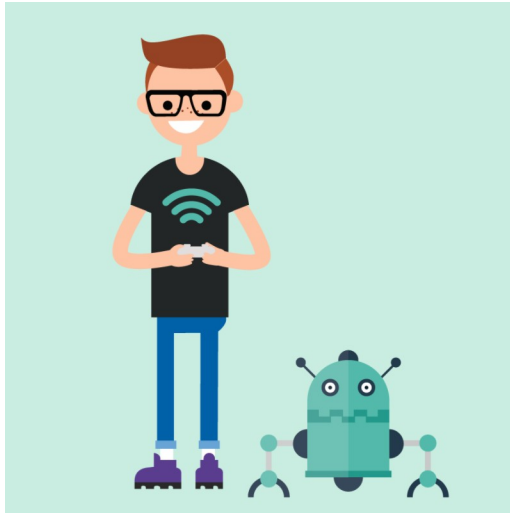

We aim to:

- Promote computational thinking, coding and tech related activities
- Bring ideas to life with code, and make programming more visible
- Bring motivated people together to explore and learn about our digital world

What is coding?

A skill-set of computational thinking, problem solving, critical reasoning, logic, teamwork and creativity

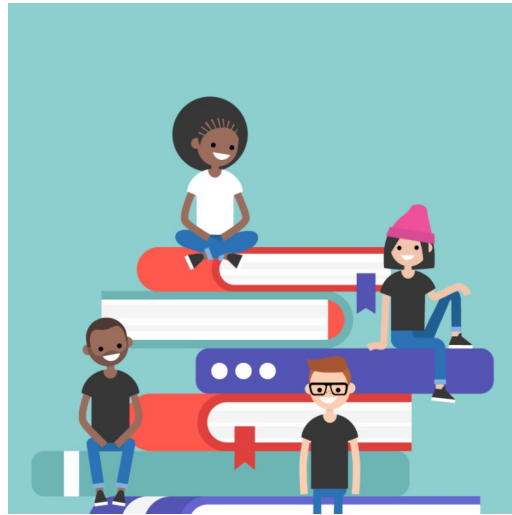

CodeWeek.EDU

8 - 23 OCTOBER 2022

09/10/2022

Why at school?

- To encourage the uptake of innovation in education systems
- To offer all students the possibility to make their first steps as digital creators
- To empower students and help them develop a better understanding of the world that surrounds them

Where to find support and information?

New to Code Week?

- Take a look at the [How-to](#) page

Looking for guidance?

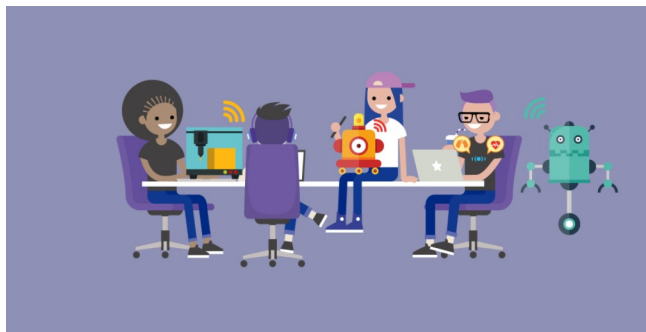

- Visit the Resources section for inspiration as well as more ideas on how to organise an activity, even without computers!

Resources

Several sections of Code Week's website allow you to find inspiration to start organising coding activities in your classroom:

- More information on [why coding is important in schools](#)
- Information on [remote teaching](#)
- Free [teacher training modules](#), including ready-to-use lesson plans
- [Code Week Podcasts series](#) on various inspiring topics
- [Additional resources](#), made by partners and the Community

Looking for a challenge?

Take part in the Code Week 4 All Challenge and earn the Certificate of Excellence!

Connect with like-minded organisers and involve at least :

- 10 activities, or
- 3 countries

Teachers toolkit

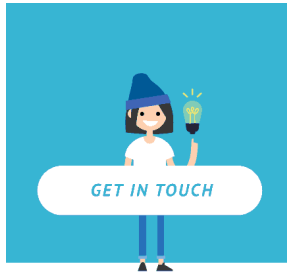

You will find:

- Code Week badge
- Code Week logo
- Code Week @ School flyer
- Code Week @ School infographic
- Code Week @ School poster
- Participation certificates for your students
- Informational presentation
- Social media frame

Get in touch

Contact your country's EU Code Week Ambassador as well as Leading teachers: Europe Code Week

Support for teachers: school@codeweek.eu

EU Code Week is a free-to-join community of educators in 28+ European countries that are active in their country.
EU Code Week is looking for ambassadors, the leading teachers and representatives of their country in the EU and recent holders countries in the EU and beyond.

Ambassadors

EU Code Week Ambassadors are the main point of contact for Code Week in their country and they ensure the success of Code Week events. The ambassadors will share information and resources that are relevant to supporting EU Code Week. They encourage organizers to register early and to participate in the Code Week activities. They also provide support to other teachers in their country and help them to plan their activities.

Meet the ambassadors

Cindy Simis

EU Code Week Ambassador for Greece. She is a primary school teacher and has been active in the Code Week community since 2018. She is currently the president of the Code Week Greece group.

Martin Mbuga

EU Code Week Ambassador for Kenya. He is a primary school teacher and has been active in the Code Week community since 2018. He is currently the president of the Code Week Kenya group.

Leading teachers

Leading teachers are an active community of more than 400 educators from across Europe. They are active in their country and are looking for opportunities to participate in Code Week and to share their experiences and resources with other teachers in their country. They also provide support to other teachers in their country and help them to plan their activities.

Join the leading teachers

Join the leading teachers and help us to make Code Week a success in your country. You can find more information on the Code Week website.
